The University of Georgia was near extinction, with many functions suspended and a student body reduced to seven, when the Reverend Moses Waddel became its president in 1819. During his administration enrollment increased to one hundred, and academic programs were revitalized. In addition, campus facilities more than doubled with the construction of New College and Demosthenian Hall. After these substantial contributions, President Waddel resigned in 1829 to return to full-time ministry in the Presbyterian Church.

The 1980 *Fact Book* cover illustration is the third in a series which honors people who have made outstanding contributions to the development of The University of Georgia.

Alonzo Church, president of The University of Georgia 1829-1859, was chosen for the first in the series in 1978. His thirty-year administration, longest in the University's history, culminated with a plan for reorganization and expansion of the University which included the establishment of the School of Law.

The portrait of Abraham Baldwin was selected for the 1979 *Fact Book* cover. Baldwin drafted the 1785 Charter of The University of Georgia, worked for its passage as a member of the Georgia General Assembly, and served as Chairman of the original Board of Trustees. The father of The University of Georgia later served as a member of the United States Continental Congress, the Federal Constitutional Convention, the United States House of Representatives, and the United States Senate.

OFFICE OF THE PRESIDENT

December 8, 1980

Dear Colleague:

This year marks the twelfth anniversary of the *Fact Book's* publication. Since 1969 it has become an increasingly valuable source of concise, comprehensive information about the wide-ranging development and resources of The University of Georgia.

We take particular pleasure this year in presenting *Fact Book 1980* to faculty and friends of the University. We hope you will continue to rely upon it for ready data in the performance of your varied activities.

Sincerely,

A handwritten signature in cursive script that reads "Fred C. Davison". The signature is written in dark ink and is positioned above the printed name and title.

Fred C. Davison
President

PREFACE AND ACKNOWLEDGEMENTS

The University of Georgia *Fact Book 1980* is intended as a reference guide to quantifiable information about the University. The development it records through objective figures and tables reinforces a host of more subjective indications of this University's progress and growing stature.

We in the Office of Institutional Research and Planning invite your suggestions for additional or more detailed data for inclusion in future editions of the *Fact Book*.

Our sincere appreciation is extended to those in many units throughout campus who contributed information for this year's publication. Special thanks must be given to Anne Coleman and Sharon Culberson who type-set *Fact Book 1980* and to the University Printing Department staff who produced the final document.

Larry G. Jones, Associate Director
Nancy G. Holmes, Technical Writer

GENERAL INFORMATION

UNIVERSITY OF GEORGIA PERSPECTIVE

Just after the close of the American Revolution, the Georgia legislature took a step that was to start another revolution—this one in higher education. In 1785, Georgia became the first state in the nation to grant a charter for a state-supported university, a decision setting the precedent whereby states would provide for the higher education of their citizens.

The infant University existed for 16 years on paper only, without campus, money, faculty, or students. Finally, in 1801, a site was selected for the campus and the first few students began to trickle into the newly formed frontier town of Athens. That first year the faculty consisted only of the college president, Josiah Meigs. Classes were held in a primitive log structure while the University, then called Franklin College, waited for its first permanent building.

From such tenuous beginnings The University of Georgia has grown to become a major teaching, research, and service institution with more than 1,850 faculty members, 13 colleges, and a physical plant serving over 23,000 students. The campus, including forestry and agricultural areas, covers some 33,700 acres. In addition, off-campus centers and experiment stations carry University services to all parts of the state.

The rich heritage of the tree-shaded campus of Franklin College, now the University's Franklin College of Arts and Sciences, has been preserved in spite of extensive campus expansion to provide the most modern of classroom and laboratory facilities. The arch at the campus entrance, the 1806 Old College structure which now houses administrative offices, and other early nineteenth-century buildings renovated for continuing use offer quiet tribute to Georgia's nearly 200-year commitment to provide quality education for its citizens.

The long and interesting history of The University of Georgia cannot be summarized easily. Several studies which illuminate various periods of that history are recommended for a more complete historical record: E. M. Coulter's *College Life in the Old South*; A. L. Hull's *A Historical Sketch of the University of Georgia*; H. C. Tuck's *Four Years at The University of Georgia, 1877-1881*; and R. P. Brooks' *The University of Georgia Under Sixteen Administrations, 1785-1955*.

PURPOSE

The University of Georgia is the State's oldest, most comprehensive, and most diversified educational institution. As the capstone of the University System of Georgia, it influences the entire structure of education in the State by leading the pace of achievement and creating a climate of intellectual and cultural development for all units in the System. Through its teaching, research, and service missions, the University focuses its enormous resources to improve the quality of life throughout Georgia and increasingly beyond the State's boundaries as well.

Teaching has historically been the primary purpose of the University and continues to be a vital responsibility. A special strength of the University lies in the scope and diversity of degree programs it offers. At the undergraduate level the University provides 19 baccalaureate degree programs, with concentrations in 181 major fields through a framework of 115 academic departments. At the graduate level it offers 19 Master's degrees in 131 areas of concentration and doctoral degrees—Ph.D, Ed.D, or D.P.A.—in 76 areas. In addition, professional degree programs are available in law, veterinary medicine, pharmacy, social work, and forest resources.

The continuing vitality of the University's graduate educational programs depends not only upon excellence in teaching but upon a strong commitment as well to basic and applied research in all academic disciplines. In addition to training experts and scholars, the University seeks through research to expand the frontiers of knowledge by providing the expertise and resources necessary to cope with increasingly complex and difficult problems.

The University directly affects the lives of millions through its service capabilities. Entire industries have come into being and flourished as a result of the University's ability to deliver new knowledge and techniques directly to those who can put them to use. Thousands of adults annually are able to expand their knowledge and skills through opportunities for continuing education provided by The University of Georgia. Specialized institutes within the University make possible a timely response to problems arising in any sector—from governmental structure to small businesses to the environment.

As a land-grant public institution, The University of Georgia became an early leader in the successful integration of teaching, research, and service components. Each of its purposes continues to enhance the institution's dedication to excellence in all three areas.

CHRONOLOGICAL HIGHLIGHTS IN THE HISTORY OF THE UNIVERSITY OF GEORGIA

<i>Year</i>		<i>Year</i>	
1784	Legislature granted 40,000 acres and named Board of Trustees for University of Georgia	1870	Master of Arts became an earned degree, based on a prescribed course of study on campus
1785	Legislature adopted UGA charter	1872	By executive order, UGA was designated the state's land-grant institution
1803	Demosthenian Society founded		State College of Agriculture and the Mechanic Arts opened for operation as a department of the University
1804	First commencement exercises held and first honorary degrees awarded	1874	Medical College of Georgia at Augusta became Medical Department of UGA
1811	Trustees suspended institution for several months	1878	Trustees adopted changes in degree programs, abandoning the elective in favor of a fixed curriculum for each program. Instead of one degree (AB) in Arts and Sciences, there would be three (Bachelor of Arts, with emphasis on Latin and Greek; Bachelor of Science, requiring only one classical language; Bachelor of Philosophy, stressing modern languages). Three degrees were possible in the Agricultural College: Bachelor of Agriculture, Bachelor of Engineering, Bachelor of Chemistry.
1816	President Brown and other professors resigned under pressure from Trustees, and the University was again dissolved until January 1, 1817	1881	General Assembly abolished tuition fees for all students
1820	Phi Kappa Society founded by J. H. Lumpkin	1883	Bachelor of Philosophy degree discontinued
1830	UGA began receiving a fixed annual appropriation as support from the state	1885	School of Technology in Atlanta established as a branch of UGA
1833	Botanical Garden founded	1888	Trustees adopted resolution for establishment of Experiment Station
1834	Alumni Society organized	1889	Board of Trustees reorganized to include one member from each congressional district, two from Athens, and four from the state at large
1842	Legislature stopped providing annual appropriation; UGA remained "private in support and public in control" until 1875	1891	State Normal School established at Athens as a branch of UGA; became Georgia State Teachers College in 1927
1854	William Terrell gave University \$20,000 to establish a department of agriculture	1892	Intercollegiate athletics introduced to University; first football game was against Auburn
1859	Trustees accepted plan to expand and reorganize UGA into several schools (medical school, law school, agriculture school, engineering school) and authorized granting of the following degrees: Bachelor of Arts, Master of Arts, Bachelor of Laws, Doctor of Medicine, Doctor of Philosophy, Doctor of Divinity, and Doctor of Laws. This was an effort to change UGA's status from a small classical college to a true university.	1901	By act of the General Assembly, UGA began receiving regular maintenance appropriations from the state
	Lumpkin Law School established	1903	School of Pharmacy established
1864-66	University closed during Civil War		First summer school sessions held
1866	First social fraternity (Sigma Alpha Epsilon) organized	1905	Certification by accredited high schools replaced written examination as requirement for admission to UGA
	Trustees authorized establishment of School of Civil Engineering		
	State of Georgia received grant of land under Morrill Act of 1862		
1869	AB curriculum reduced from four to two years; junior and senior years became elective		

CONT'D: CHRONOLOGICAL HIGHLIGHTS IN THE HISTORY OF THE UNIVERSITY OF GEORGIA

<i>Year</i>		<i>Year</i>	
1906	College of Agriculture and School of Forest Resources established	1960	Honors Program began
1908	A & M College divided into College of Science and Engineering and College of Agriculture College of Education founded	1961	UGA became racially integrated Institute of Community and Area Development and Institute of Ecology established
1910	Graduate School established by W. H. Boccock	1964	School of Social Work began operations Institute of Higher Education established
1912	School of Commerce (later College of Business Administration) founded	1965	Institute of Continuing Legal Education in Georgia founded
1915	School of Journalism established	1966	First "Study Abroad" Program conducted
1918	Board of Trustees adopted resolution admitting women to University for the junior and senior years only	1968	Institute of Natural Resources began operations
1931	University System of Georgia organized under Board of Regents	1969	Rural Development Center established School of Environmental Design formed
1932	State College of Agriculture and State Teachers College merged officially with UGA; all engineering was transferred to Georgia Tech; School of Commerce at Georgia Tech came to the Athens campus	1970	Institute for Behavioral Research established
1933	School of Home Economics founded	1972	Rising Junior Test adopted as a graduation requirement
1938	University of Georgia Press established	1974	Special Studies Program implemented statewide, and standard minimum SAT score established as a requirement for admission to any System institution
1942	Athens became site of one of U.S. Navy's five Pre-Flight Schools UGA lost accreditation with Southern Association of Colleges and Secondary Schools because of political interference	1976	Institute for Natural Products Research established
1943	University System regained full accreditation and a new, constitutional Board of Regents was created	1977	Rusk Center for International and Comparative Law dedicated UGA Small Business Development Center established
1945	Georgia Museum of Art founded		School of Accounting established in College of Business Administration
1946	<i>Georgia Review</i> began publication College of Veterinary Medicine re-established by Regents		Geochronology Lab became Center for Applied Isotope Studies
1949	All agricultural activities (College of Agriculture, Experiment Station, and Extension Service) combined under one Dean	1978	School of Home Economics became College of Home Economics Institute of Continuing Judicial Education established
1953	Kellogg Foundation bestowed a grant for establishing Georgia Center for Continuing Education		Gerontology Center established Black Alumni Association founded
1954	Institute of Law and Government (now called Institute of Government) founded Marine Institute established		UGA Research Foundation established
		1980	UGA accorded Sea Grant College status

Joint Degree(s)

- Pre-Medicine
BS
Three years at The University of Georgia and one year in the School of Medicine at the Medical College of Georgia
- Pre-Dentistry
BS
Three years at The University of Georgia and one year in the School of Dentistry at the Medical College of Georgia
- Pre-Veterinary Medicine
BS
Three years at The University of Georgia and one year in the College of Veterinary Medicine at The University of Georgia
- Pre-Engineering
Bachelor of Science and Bachelor of Science in Engineering
BS and BSE
Three years at The University of Georgia and two years at the Georgia Institute of Technology

Certificate Program(s)

- Afro-American Studies
- French Studies
- Latin American Studies
- Medical Studies
- Women's Studies
- Pre-Professional Programs
 - Pre-Forest Resources
 - Pre-Journalism
 - Pre-Pharmacy
 - Pre-Theology
 - Pre-Medicine - Pre-Dentistry
 - Pre-Law
 - Pre-Veterinary Medicine
 - Allied Health

*Applied Areas in Music Degrees:

Baritone, bassoon, cello, clarinet, composition, double bass, electronic music, flute, French horn, guitar, harp, harpsichord, oboe, organ, percussion, piano, saxophone, trombone, trumpet, tuba, viola, violin, voice

STUDENT RELATED INFORMATION

THE DIVISION OF STUDENT AFFAIRS, because it believes that student potential is enhanced through a systematic emphasis on individual needs, provides services and programs that help students (1) understand and use available academic resources, (2) plan their life work, (3) learn to live with others in harmony and mutual respect, and (4) maintain mental and physical health as they integrate personal, professional, and social values.

The Office of the Vice President for Student Affairs provides leadership, coordination, and budgetary supervision for the ten departments within Student Affairs:

The Career Planning and Placement Office assists students both before and after graduation to explore career options and pursue career goals. In addition, this department assists students who seek employment while attending the University, supplies information regarding professional and graduate schools, and provides comprehensive placement services.

The Counseling and Testing Center provides a broad range of counseling and testing services to the University community. Major areas of service include individual and group counseling, structured group programs, career exploration, learning skills, outreach programs, non-traditional student services, consultation, training, administration of national and university-wide testing programs, and test-scoring services.

The Department of Student Activities contributes to students' social, cultural, recreational, and intellectual development through its programming areas: Black Affairs, Communiversity, Intramurals and Sports Clubs, Leadership Development, Fraternity and Sorority Affairs, Special Programs, Student Clubs and Organizations, and the University Union. This department also publishes a quarterly activities calendar, processes the student I.D. card, and maintains an Information Center in Memorial Hall.

The Department of University Housing provides residence hall and family housing accommodations for students; it also serves as a liaison between the University and those fraternity and sorority corporations with houses on University property. The department sponsors a variety of recreational and educational programs and maintains a student and professional staff whose efforts are directed to promoting students' personal, social, and scholastic development.

The Office of International Services and Programs offers activities designed to promote international understanding and cultural exchange for both foreign and American students. In addition to advising foreign students on immigration matters, personal problems, finances, and housing, this office counsels American students and faculty interested in work, study, or travel abroad.

The Office of Judicial Programs offers students advice and assistance in legal matters related to the University and assists in the formulation and enforcement of University policy. It further supervises the University Judicial System and the Defender-Advocate Society, conducts legal research, and consults with individuals regarding alleged violations of University regulations.

The Office of the Registrar maintains permanent academic records and processes class rolls and grade reports. The Registrar also publishes a quarterly schedule of classes, coordinates registration, provides transcript services, assists with graduation, determines residency status, and administers the program of benefits for veterans.

CONT'D: THE DIVISION OF STUDENT AFFAIRS

The Office of Student Financial Aid determines the student financial aid eligibility of students attending The University of Georgia; coordinates other on-campus and off-campus awards in student financial aid packaging to prevent over-awards; and reports all aid awarded to students attending the University to the Board of Regents, the federal government, and University officials.

The Undergraduate Admissions Office advises prospective students regarding admission to the University and coordinates the University's Orientation Program for new students. This office reviews applications for admission and readmission and determines transfer credit for courses taken at other institutions.

The University Health Service maintains a professional staff of physicians, nurses, counselors, and technicians to provide students with comprehensive physical and mental health services on an outpatient and inpatient basis. Its services include physical therapy, laboratory and x-ray facilities, various specialty clinics, a pharmacy, and a health education department. The University Health Service also offers a voluntary accident/sickness insurance policy and a dental plan for students, in addition to the many services which are automatically covered by the student health fee.

RESEARCH, SERVICE, AND
AUXILIARY AND ADMINISTRATIVE UNITS

THE AGRICULTURAL EXPERIMENT STATIONS seek and verify new knowledge through scientific research in the many fields related to agriculture. There are three main stations at Athens, Experiment, and Tifton; five branch stations at Blairsville, Calhoun, Plains, Midville, and Eatonton; and an Extension-Research Center at Attapulgus. Research projects are conducted in agricultural economics, agricultural engineering, agronomy, animal and dairy science, entomology, food science, forest resources, home economics, horticulture, plant pathology, and poultry science.

AUXILIARY AND ADMINISTRATIVE SERVICES, including the University Bookstore, Campus Transit System, Food Services, University Golf Course, Printing Department, and the ROTC Uniform store, are supported by income generated from the sale of merchandise and services to students, faculty, and staff. Financially self-supporting, these auxiliary units are related to the educational objectives of the University. Campus Mail, Central Duplicating, and Office Machine Maintenance are Administrative Service Units which provide services to University Departments.

Campus Mail is responsible for the twice daily (Monday–Friday) pick-up and delivery of all internal campus mail throughout the University.

Campus Transit System operates a fleet of 24 buses for students and staff. Seven routes are provided from 7:00 a.m. to 6:00 p.m., with a night route from 6:00 p.m. to 10:30 p.m.

Central Duplicating is a quick-copy center for camera-ready material. Located in the basement of the Business Services Building, the center provides pick-up and delivery service, in addition to services such as folding, binding, drilling, copy reducing, and collating. Services are available for departments and units listed in the University or Student Chart of Accounts.

Office Machine Maintenance has factory-trained technicians who repair and maintain reprographic equipment and typewriters for University Departments.

ROTC Uniform Store, located in Hardman Hall, serves as a source of military uniforms for Air Force ROTC students.

University Bookstore is a retail facility specializing in textbooks, paperback books, educational supplies, art supplies, UGA monogrammed novelties, and convenience items. Unusual books not carried in stock may be procured through the special order department.

University Food Services seeks to satisfy the food service needs of students, faculty, and staff with a wide variety of wholesome foods served at reasonable prices. Four dining facilities—Bolton Hall, Snelling Hall, Oglethorpe Hall, and the Bulldog Room—are maintained by the University Food Services for its customers. In addition, the McWhorter Dining Hall serves participants in athletic programs. The University Food Services also provides banquet services and catering for University groups.

University Golf Course is a teaching and recreational facility available to students, faculty, staff, alumni, and their dependents, plus conferees. The 18-hole championship course, designed by Robert Trent Jones, also includes driving range, putting greens, and chipping green. "Golfing weather" hours are Monday through Friday from 8:30 a.m. until sundown, and weekends and holidays from 7:30 a.m. until sundown. The Pro Shop carries a complete line of golfing equipment and supplies.

University Printing Department provides the following printing services to departments or units listed in the University or Student Chart of Accounts: type setting, offset printing, letterpress printing, binding, and a full range of related services.

University Vending is operated by private contractors under the supervision of Auxiliary Services.

THE BUREAU OF EDUCATIONAL STUDIES AND FIELD SERVICES provides educational consultants as requested by the public schools of Georgia, the region, other colleges, and the State Department of Education. The services of the Bureau are available on a continuing basis to local school boards and other educational agencies for analyzing problems, improving educational practices, and continually updating the knowledge and skills of administrative, supervisory, and teaching personnel.

THE CENTER FOR APPLIED ISOTOPE STUDIES, an applied research group under the direct supervision of the Office of the Vice-President for Research, is located in the University's Research Park in the Center for Applied Isotope Studies Building. The primary activities of the Center are to assist the academic, scientific, and industrial communities in applied and basic research. Emphasis is placed on applied research, assisted by a unique array of nuclear analytical tools, in resolving critical contemporary problems. A service laboratory is maintained for age dating, stable and radiometric analyses.

THE CENTER FOR APPLIED MATHEMATICS has become noted for research in frontier problems of applied mathematics: nonlinear mathematics, stochastic systems, control and optimization theory, and computer mathematics, with an applied mathematics program available at the doctoral level. Modern applied mathematics has a strong influence on the development of the physical and biological sciences, economics, psychology, and engineering; the Center has contributed some major advances in the methods available to these areas. The Center also provides analytical and computer methods for solutions or approaches to diverse problems. It is supported by state funds, governmental grants, foundations, and industry.

THE COOPERATIVE EXTENSION SERVICE acts as an educational service arm for the University, providing information and training to Georgia citizens. Staff members, representing both the University of Georgia College of Agriculture and the U.S. Department of Agriculture, present educational programs in agriculture, home economics, community and rural development, and 4-H and youth development. Programs are based on research from Experiment Stations and coordinated at the local level by County Extension Directors in response to needs articulated by local citizens.

The Rural Development Center, located at Tifton, is an educational and public service unit of the Cooperative Extension Service of the University of Georgia College of Agriculture. The program of the Center is directed toward the realization of four principal objectives: agricultural and forest production efficiency; advanced marketing techniques and utilization of farm and forest commodities; comprehensive community development; and manpower training and development.

THE DIVISION OF RESEARCH: COLLEGE OF BUSINESS ADMINISTRATION serves the State through research projects on problems of economic growth and development in Georgia and the Southeast. It provides a current collection of business and economic reference materials, helps faculty members develop proposals and obtain grants, and offers editorial and administrative support to faculty engaged in business and economic research.

The Division publishes *Georgia Business*, a bi-monthly magazine composed of faculty research papers and monographs; *The Georgia Statistical Abstract*; and series of travel research studies and of monographs on the Georgia economy. In addition, the Division conducts a program of State and regional economic analysis through the Center for Regional Studies and the Georgia Economic Forecasting Project.

THE GEORGIA CENTER FOR CONTINUING EDUCATION plans and implements educational programs in response to the diverse needs of adult Georgians, as manifested individually or

through a range of government agencies, business organizations, and civic, cultural, and educational groups. The Center's staff works with University faculty and clientele groups to bring the relevant resources of the University and the University System to adult publics.

The Center fulfills this function by conducting conferences in Center facilities, University credit and non-credit courses held both on and off campus in the evenings and on Saturdays, independent or home study, and educational television broadcasts over WGTV. Other services provided by the Center include film production, cooperative programming with other higher education institutions throughout the State, film library operations, and consultation and supportive services to organizations and agencies.

THE GEORGIA MUSEUM OF ART, founded in 1945 by Alfred H. Holbrook, is dedicated to the concept of instructional service not only to the University but to the community and region as well. The permanent collection of the Museum now numbers over 5,000 works of art, with primary emphasis on American artists. Extensive files are maintained on each object for the benefit of the student. The Museum cooperates with various departments in scheduling exhibits of common interest.

THE GEORGIA REVIEW is a nationally known journal of arts and letters, published by the University since 1947. Its quarterly issues feature a rich blend of the best in contemporary thought and literature—essays, poetry, fiction, and book reviews. Intended for the informed, nonspecialist reader, the *Review* appeals across disciplinary lines by drawing from a wide range of interests: literature, history, philosophy, architecture, film, and the musical and visual arts.

THE GERONTOLOGY CENTER was established in 1978 to promote and coordinate instruction, research, and public service in the field of aging. The Center faculty, composed of some fifty members from more than a dozen departments/units within the University administers a certificate program in gerontology at the graduate level. Special programs are planned to provide leadership in the systematic growth of gerontology as a multi-disciplinary study.

THE INSTITUTE FOR BEHAVIORAL RESEARCH, a multidisciplinary research organization, exists to encourage the combined efforts of faculty, staff, and graduate students from various departments for the study of significant social and behavioral problems. The IBR provides assistance to investigators seeking research funds from government agencies or private foundations, and it coordinates the participation of state and regional experts in an expanding number of interdisciplinary research projects.

THE INSTITUTE FOR NATURAL PRODUCTS RESEARCH carries out a broad range of research in the chemistry of naturally occurring substances of plant origin, with particular attention to plant species of Georgia and the Southeast. Projects involve research on alkaloids, terpenes, insect sex pheromones, antitumor agents, the development of new synthetic methods, and the application of modern spectroscopic methods to structure elucidation problems. Research involves the isolation, characterization, and elucidation of chemical structures of new compounds possibly useful as drugs for the treatment of human disease.

THE INSTITUTE OF COMMUNITY AND AREA DEVELOPMENT brings the resources of the University to bear on problems of Georgia's communities by providing technical assistance and consulting services to regional planning commissions, state agencies, and units of local government. A wide range of disciplines is represented, including adult education, arts administration, community development, community education, criminal justice, ecology, geography, health, pharmacy, recreation, and social work. ICAD's program takes many forms: consultation and technical assistance, workshops, conferences, seminars, individually designed task force investigations, and research studies. In addition, ICAD publishes reports of staff members' studies, books on subjects of general interest, audiovisual materials, and three periodicals.

THE INSTITUTE OF CONTINUING JUDICIAL EDUCATION OF GEORGIA is housed at the University of Georgia School of Law. It plans and conducts approximately twenty seminars each year for the continuing professional development of judges of the Georgia courts and

Other members of the judicial branch. In addition, it supports participation by selected personnel of the judicial branch in programs conducted by national training agencies. Its programs each year reach more than 1,500 judges and other judicial branch members. The Institute receives educational funding from the Law Enforcement Assistance Administration through the State Crime Commission and administrative support from The University of Georgia and a limited State appropriation.

THE INSTITUTE OF CONTINUING LEGAL EDUCATION IN GEORGIA represents the combined efforts of The University of Georgia School of Law, the Law Schools of Emory and Mercer Universities, and the State Bar of Georgia to provide a continuing legal education program for the Georgia lawyer. Approximately 35 programs, geographically distributed around the state, are presented each year and attended by over 4,500 registrants. Through these programs and various publications, the Institute provides the lawyer an excellent opportunity to keep up with developments in the legal profession, to increase expertise, and to benefit from the knowledge of experts in various fields.

THE INSTITUTE OF ECOLOGY supports and encourages multidisciplinary research and service activities in ecology involving faculty and graduate students from a variety of departments, schools, and research sites. Besides laboratory facilities on campus in the Ecology Building, the Institute also operates the Savannah River Ecology Laboratory for the U.S. Department of Energy. Field sites include Venezuela's Amazon Forest, the U.S. Forest Service Coweeta Hydrologic Laboratory, the Okefenokee National Wildlife Refuge, Yellowstone National Park, and other locations. The Institute supports research in marine and freshwater ecology, thermal ecology, radiation ecology, mineral cycling, tropical and temperate forests, old field dynamics, agroecosystems, granite outcrops, and swamps. Its service program aids industry and government in making environmental assessments, teaches short courses in ecology, and provides other ecological services.

THE INSTITUTE OF GOVERNMENT coordinates an interdisciplinary program to improve the skills of elected and appointed State and local public officials in Georgia. To accomplish its purposes, the Institute of Government conducts nearly 600 training programs and conferences each year, engages in an extensive publications and research program, and offers technical assistance to public officials. Its variety of services is conducted through four divisions: Governmental Research and Services, Criminal Justice, Legislative Research, and Governmental Training. In conjunction with the Department of Political Science, it also coordinates the activities of the off-campus MPA degree program.

THE INSTITUTE OF HIGHER EDUCATION provides a variety of services and resources, including a doctoral program in higher education, for the professional development of college administrators and faculty members. Its staff works primarily with two- and four-year colleges on curriculum development, program evaluation, institutional research, leadership and management support skills, and overall administrative effectiveness. Under cooperative arrangements with other agencies and institutions, the Institute is involved in the development and improvement of higher education throughout the State and surrounding region. Each year the Faculty Development in Georgia (FDIG) program provides opportunities for a number of faculty members in Georgia colleges, public and private, to continue their graduate education at The University of Georgia. The Institute's staff works closely with other educational agencies and organizations in research, development, and evaluation projects dealing with all phases of education beyond high school.

THE INSTITUTE OF NATURAL RESOURCES is an interdisciplinary unit designed to synthesize relevant aspects of the biological, physical, and social sciences, as well as law and humanities, to solve complex natural resource management problems. The Institute conducts research and coordinates University programs and activities pertaining to (1) development, use, and management of biological resources—fish, wildlife, forests; (2) development, use, and management of water and land resources; (3) mineral- and energy-resource planning and management; (4) climatology; and (5) natural resource policy analysis. The Institute cooperates closely with

other units of the University System and, upon request, acts in an advisory capacity to government and private organizations on matters relating to natural resources.

THE INSTRUCTIONAL RESOURCES CENTER provides media equipment and materials for staff use: a media library of films, slides, and audio and video tapes, as well as audio-visual and television equipment for loan; color and black-and-white copy services, audio and video tape duplication, passport photos, photographic services, materials for instruction (including slide-tape presentations, graphic aids, and video tape segments). IRC also operates a closed-circuit television system limited to the Journalism Building, with a color television studio and color mobile production unit to provide the University with capabilities to record events on campus and original programs for classroom use. Though IRC was created to service the instructional needs of the University, services are available to all units on a charge basis.

THE MARINE SCIENCES PROGRAM, established by the University in 1976, is responsible for the coordination and general management of the Marine Institute, Marine Extension Service, Marine Sciences Faculty, and the Georgia Sea Grant Program.

The Marine Institute, located on Sapelo Island, was established in 1953 to serve as a research facility for resident staff and for campus-based faculty members. Research has centered mainly on basic marsh ecology to provide an understanding of energy flow, cycling of minerals and nutrients through the marshes, and factors regulating the metabolism of the salt marsh ecosystem.

The Marine Extension Service helps to solve problems related to the State's marine resources. The Marine Resources Center on Skidaway Island is the major marine education facility for schools and colleges in the State. At the Brunswick Extension Station, specialists work directly with the fishing and seafood processing industry to solve problems of resource management and utilization.

The Georgia Sea Grant Program, part of the National Sea Grant College Program, was established in 1971. In an approach roughly analogous to that of the Land Grant System in working with agriculture, Sea Grant promotes the wise use of marine resources through a coordinated program of research, education, and advisory services. Sustained excellence in all three areas of activity earned Sea Grant College status for the University in 1980, when it became the fifteenth institution in the nation to attain that rank.

THE OFFICE OF CAMPUS PLANNING assists the University administration in planning the physical development of The University of Georgia and its related agencies. It plans, coordinates, and implements construction projects both on and off campus and serves as liaison agent between the University and the Board of Regents' Office of Facilities. More specifically, this office helps departments conceptualize proposed projects; places these projects in priority order; and assists in site determination, selection of architects and engineers, preparation of detailed project programs, coordination of preliminary and final plans, and development of master plans.

THE OFFICE OF COMPUTING AND INFORMATION SERVICES manages four large major hardware systems, all interconnected. Two IBM 370/158's serve as primary support for the University of Georgia's instruction, research, and administrative programs; the CDC OMEGA 480-2 supports primarily the University's Library Automation System; the CDC CYBER 70/74 is the support machine for the University System of Georgia Computer Network.

OCIS is divided into three large functional areas to serve the broad user community—the Computer Services Division, the Information Services Division, and the Special Projects Division. The Computer Services Division is composed of three departments responsible for systems programming, the operation of all computers and associated hardware, and the provision of assistance to all individuals who use the facilities. The Information Services Division is responsible for the literature searches from machine-readable data bases, the Library Automation

project, as well as services that support the census files. The Special Projects Division manages all research grants within OCIS.

THE OFFICE OF DEVELOPMENT AND UNIVERSITY RELATIONS is responsible for the planning, coordination, and conduct of all programs involving alumni and friends of the University, including institutional public relations and fund raising. The Office of the Vice President embraces three functional units. The Office of Alumni Relations works with the Alumni Society and various school and college groups to conduct year-round programs involving alumni and friends throughout the United States. The Development staff is concerned with all aspects of fund-raising for the University and works closely with the various schools and colleges, their alumni constituents and friends. The University of Georgia Foundation, an independent incorporated group created to assist the University, handles endowments and unrestricted funds received from alumni, friends, and corporate donors. The Office of University Relations gathers and disseminates information about the University to members of the University community as well as to the various publics of the institution. An Office of Administrative Services supports the work of all offices under the Vice President.

THE OFFICE OF INSTITUTIONAL RESEARCH AND PLANNING has as a primary responsibility the collection, organization, and analysis of data to serve all aspects of the operation and management of the University. In addition to student, faculty, staff and space utilization analyses, this unit conducts studies related to projected needs, program objectives, and efficiency and effectiveness in the use of institutional resources.

THE OFFICE OF INTERNATIONAL DEVELOPMENT serves as a liaison between The University of Georgia and ministries of foreign governments as well as developing educational institutions in other countries. It seeks ways to answer academic and technological needs of developing nations who ask for assistance in the areas of agriculture, veterinary medicine, basic sciences, business administration, community and area development, ecology, education, environmental design and planning, forestry, home economics, pharmacy, rural development, social sciences, and social work. Services are delivered directly to potential recipients or through organizations such as the U.S. Agency for International Development, the U.S. Department of Agriculture, the United Nations Food and Agriculture Organization, consortia such as the South-East Consortium for International Development, and private consulting groups.

THE OFFICE OF RESEARCH ADMINISTRATION has the responsibility of general administration of sponsored research accounts on behalf of The University of Georgia and the University of Georgia Research Foundation, Inc., and also of several State-funded units administered through the Office of the Vice President for Research. Expenditure accounting is provided for several sponsored programs, research institutes, and other research support functions administered through the Office of the Vice President for Research. The University's research service shops and Central Research Stores are administered by the Office of Research Administration.

THE POULTRY DISEASE RESEARCH CENTER carries out basic and applied research programs in many of the diseases of domestic poultry which are of economic importance to the poultry industry of Georgia. Diagnostic, laboratory, and consultative services are provided to individuals and groups in all phases of poultry production.

THE PUBLIC SAFETY DIVISION, through the Director of Public Safety, administers functional, educational, and community service programs which respond to hazards of life and property arising out of activities in the University community. Crime prevention and control are carried out by the University of Georgia Police Department headed by a Chief of Police and staffed by some fifty sworn police officers with full Peace Officer authority. The UGA Police Department personnel conduct the Northeast Georgia Police Academy to provide basic, in-service, and advanced/specialized training for city, county, and state law enforcement agencies in twenty-four counties of northeast Georgia. The Traffic Safety Department provides traffic analyses, parking control, accident prevention, and pedestrian safety programs.

The professional staff for Environmental Safety Services administers a comprehensive safety program designed to promote University operations within federal, state, and local laws and regulations related to biohazardous agents, chemical carcinogens, toxic hazards, ionizing and non-ionizing sources of radiation, radioactive and non-radioactive wastes, pesticides, water and air quality, noise pollution, and food sanitation. Many faculty as well as graduate students enroll each year in the Radiation Safety Course. The Occupational Health and Safety program is designed to reduce physical hazards resulting from occupational hazards and facility design through an accident prevention program. This program also provides training for employees and students in cardiopulmonary resuscitation and other life-saving techniques.

THE DEAN RUSK CENTER FOR INTERNATIONAL AND COMPARATIVE LAW was founded in 1977 to facilitate relations among business and governmental entities at the local, state, federal, and international levels. Using advanced information-processing techniques, it identifies specific relationships that involve unnecessary burdens on business or governmental interests affecting international trade and investment; mobilizes university, business, and governmental resources to develop theoretical and practical approaches for reducing such burdens; and helps implement such approaches by providing business and government with essential manpower and information. The Center has developed several major initiatives for federal action concerning North American cooperation and overseas trade regulation and representation and has established an electronic information network to coordinate actions of state governors on international trade issues.

THE SMALL BUSINESS DEVELOPMENT CENTER serves both as the coordinating unit for a statewide business extension program and as the district center providing service to small businesses in Northeast Georgia. It works actively to improve the net equity, net profit, and growth potential of small businesses and to develop jobs in the private sector. In state fiscal year 1979-80, the Center provided services to more than 15,000 Georgia-based small businesses. As one of the original centers in a national program, the SBDC operates through the cooperative efforts of The University of Georgia, governmental agencies, and the private sector.

The SBDC's major functions are encompassed within its five major divisions: 1) life-long learning programs conducted by the Division of Continuing Education; 2) one-on-one counseling, applied research, and economic forecasting provided by the Division of Business Information Services; 3) emphasis on degree-granting programs for small business personnel through the work of staff in the Division of Residential Instruction; 4) emphasis on enhancing success for minority business ownership through the work of staff in the Office of Minority Business Development; and 5) fostering of small business export programs provided by the International Trade and Development Division.

THE UNIVERSITY OF GEORGIA BOTANICAL GARDEN serves the University as an outdoor laboratory for teaching and research in the plant sciences. It contains representative samples of Piedmont plant communities, as well as collections of selected ornamentals. The Garden is open for study and enjoyment from 8:00 a.m. to dusk daily.

Short courses and other educational activities are initiated by the staff of the Botanical Garden and group tours arranged on request. The Botanical Garden's Callaway Building is available by arrangement for meetings and conferences.

THE UNIVERSITY OF GEORGIA LIBRARIES include the Main (Ilah Dunlap Little) Memorial Library, the Science Library (with branches at the Georgia Center and off-campus experiment stations), and the autonomous Law Library. The total collection of nearly two million volumes affords one of the largest academic resources for research and instructional support in the Southeast.

The Libraries provide information for the University's instructional, research, and public service activities. They conduct approximately 500,000 circulation transactions annually and service 25,000 Interlibrary Loan requests, including a large number of borrowing requests from institutions within the State. The Libraries, open 97 hours per week during regular session, have seating for 1,300 in the Main Library, for 1,000 in the Science Library, and for 350 law students.

Growth of Library Resources

<i>Library Material</i>	<i>Added FY 1979-80</i>	<i>Total June 1980</i>
Books, Serials, Documents	83,700	1,985,646
Microforms		
Microfilm	2,627	106,286
Microfiche	122,484	1,015,482
Microcards	0	264,939
Microprint	11,588	473,274
(Total Microforms)	136,699	1,859,981
Maps	7,015	256,019
Aerial Photographs	34,645	168,569

Other materials collected by the Libraries include manuscripts, broadsides, photographs, slides, filmstrips, motion pictures, sound recordings, audio and video tapes, music scores, and sheet music.

THE UNIVERSITY OF GEORGIA MUSEUM OF NATURAL HISTORY, which contains the most extensive collection of Georgia natural history artifacts and specimens, is one of the largest natural history museums in the Southeast. The Museum comprises six extensive research collections: Anthropology (3.5 million artifacts); Botany (135,000 plant specimens); Entomology (250,000 insects, several million mites); Mycology (25,000 fungi); Geology (mineralogical, economic geology ore, fossil vertebrate and invertebrate fossil collections); and Zoology (125,000 vertebrates, 5,000 invertebrates, 5,000 reef corals).

THE UNIVERSITY OF GEORGIA PRESS was established in 1938 as the book-publishing arm of The University of Georgia faculty. Since then it has published over 500 books in a variety of areas by authors not only from The University of Georgia but from other American institutions as well. The Press publishes between 30 and 35 books per year for the benefit of both scholars and educated laypersons. During the past four years over 240,000 copies of its books have been sold to a wide audience throughout the world.

THE UNIVERSITY OF GEORGIA RESEARCH FOUNDATION, INC., administers the sponsored research program for the University. All research proposals (except certain Agricultural Experiment Station proposals going to USDA) are submitted through and awards made to the Research Foundation. In turn, the Research Foundation sub-contracts with the University to conduct the research activities. It provides project development assistance to faculty members and is a source of direct support for research through its Departmental Research Support activities, Grants Program, and Contingency Fund.

THE UNIVERSITY OF GEORGIA RESEARCH PARK, a center for research and development, provides services and educational facilities for University, State, federal, and private organizations. Activities in the Research Park are related to applied studies in animal and plant pathology, agricultural engineering, bacteriology, botany, entomology, chemistry, pharmacy, physics, geology, food science, poultry science, forest management, work utilization, water pollution, zoology, ecology, community and area development, and research and personnel training in the area of mental retardation.

Facilities Located at the Research Park (Controlling Agency)

- Agricultural Research Facilities (UGA)
- Botany and Biochemistry Plant Growth Research Facilities (UGA)
- Cobalt 60 Irradiation Facility (UGA)
- Environmental Research Laboratory (Federal)
- Georgia Retardation Center, Athens Branch (UGA and State)

Institute of Ecology Research Facility (UGA)
Northeast Georgia Area Planning and Development Commission (Area)
Poultry Disease Research Center (UGA)
Psychology Animal Behavior Laboratory (UGA)
Richard B. Russell Agricultural Research Center (Federal)
Riverbend Research Laboratories (UGA)
Soil Testing and Plant Analysis Laboratory (UGA)
Southeast Poultry Research Laboratory (Federal)
Southern Regional Poultry Genetics Laboratory (UGA)

THE VETERINARY MEDICAL DIAGNOSTIC ASSISTANCE LABORATORIES at Athens and Tifton handle over 27,000 specimen submissions each year. The laboratories are staffed and equipped to give diagnostic assistance to the Georgia Department of Agriculture, the livestock industry, and animal owners of Georgia through a policy of referral from local veterinarians.

THE VETERINARY MEDICINE EXPERIMENT STATION coordinates and conducts research on health problems in food- and fiber-producing animals, including poultry. The research programs, which have applied, basic, and comparative medical orientation, are divided broadly into four main categories: infectious diseases, non-infectious diseases, diagnostic techniques, and therapeutic procedures. Research facilities are located within the College of Veterinary Medicine at Athens, in the Poultry Disease Research Center at Athens, and in the Veterinary Diagnostic Assistance Laboratories at Athens and Tifton. Opportunities for graduate training in the biomedical sciences are provided by the Station's research programs.
