2018: Best Colleges - Main Survey

Introduction

BEST COLLEGES

Data Collection

U.S. News has begun collecting data for the 2019 edition of Best Colleges. The U.S. News surveys ask about many aspects of your institution that are important to potential college applicants across the country, other educational intuitions, and the public at large.

Survey Deadline: May 10th, 2018

There are 3 steps in the U.S. News data collection process:

Step 1: Data - Fill in as much of the survey as possible.

Step 2: Assessment - After filling in your data, navigate to the 'Main Survey Assessment' section. The assessment runs a comparison between your current data and the data submitted last year. The assessment will identify potential errors between the two years of data. For more information please go to the main assessment section.

Step 3: Verification - After reviewing the assessment and fixing any remaining errors, navigate to the section titled 'Verification'. This is where the survey submission takes place. Please take some time to review your survey data one last time. When you are ready, please select the check box, fill out the identification information and hit the red 'Submit Survey' button.

Important Icons

- * The red asterisk located next to a few question numbers indicated that the question is mandatory. If the question is not answered you will be unable to submit the survey. All assessment flags are mandatory and must be addressed.
- * The red x indicates that you have not filled out the question correctly. There will be a line of text that accompanies the icon letting you know what the exact problem is. Once the issue is corrected, the x will disappear. All failed validations must be fixed before the survey can be submitted.
- The gold shield indicates that the question has been used in past U.S. News Best Colleges rankings calculations or is under consideration for future use.
- 7 The question mark indicates a tip on how to answer that particular question.
- The checkbox indicates the assessment section of the survey.
- The upward arrow indicates the verification section of the survey. This is where the submission button is located.

Entering Data

To move between fields, you may either click on the field you wish to move to or press the Tab key until you reach that field. To move between individual pages of the survey, click on the "Next" or "Previous" links at the bottom of the page. You may also click on the section links listed in the index on the right-hand side of the screen and go to any page in the survey.

Saving Data

Saving data happens when a few actions are taken. One, you select the 'Next' button at the bottom of the page. Two, you select and navigate to another section in the question index. Three, you hit the 'Save' button at the bottom of a page. If you plan on leaving the survey before completion, please hit the save button before exiting the survey.

Getting Help

If you have questions or encounter problems while you are completing the survey, click the "Help" button on the top right-hand side of the screen. This will direct you to the data collector assigned to your institution.

The Common Data Set

U.S. News is again using questions from the Common Data Set (CDS). The CDS initiative is a collaborative effort among data providers in the higher education community and publishers as represented by the College Board, Thomson Peterson's, and U.S. News & World Report. We hope that this effort to standardize data definitions makes it easier to complete our questionnaire.

For easy reference, all CDS items are noted throughout the Main and Financial Aid surveys. The CDS does not cover any of the questions on the Finance survey. Please note that some of the questions used in the Best Colleges rankings are unique to the U.S. News survey and are not included on the CDS. After you have submitted your CDS, you will have an opportunity to submit information for these questions.

All CDS submissions must be received by May 2nd 2018 in order to allow enough time for data entry and processing in-house. Please contact your data collector for more information.

Questions Used in the Best Colleges Ranking

The questions or question areas listed below are the data points that are used in the U.S. News Best Colleges ranking calculations. More details on the U.S. News Best Colleges rankings can be found here: https://www.usnews.com/education/best-colleges/articles/how-us-news-calculated-the-rankings)

Please note: The primary factor used to determine whether a school will be eligible to be ranked in the 2019 edition of the U.S. News Best Colleges rankings is question 57: Does your institution make use of SAT, ACT, or SAT Subject Test scores in admission decisions for first-time, first-year, degree-seeking applicants?

The answer to this question must be "Yes" in order for a school to be ranked in the 2019 edition of the U.S. News Best Colleges rankings. A school that answers "No" will not be included in the rankings and will be listed as an "Unranked School." Test optional schools should answer question 57 as Yes. Only schools that don't use SAT or ACT test at all in admission should answer as No.

If you have questions on the Best Colleges ranking methodology, which schools qualify to be ranked or unranked, U.S. News publications or how these statistical surveys are used in the rankings, contact Bob Morse, Chief Data Strategist, at rmorse@usnews.com (mailto:rmorse@usnews.com).

Important Notice: U.S. News in its discretion will attempt to do cross-checking of data from what information schools have submitted on their Fall 2017 IPEDS Institutional Characteristics survey that appears on the U.S. Department of Education's College Navigator web site http://nces.ed.gov/collegenavigator/ (http://nces.ed.gov/collegenavigator/) or can be downloaded from the IPEDS website, provided that the schools are ultimately responsible for the accuracy of the data that they submit. If you need more details on how the cross-checking or missing data fill-ins will work, contact Bob Morse at rmorse@usnews.com).

On behalf of the data collectors, reporters, and editors here at U.S. News and our many appreciative readers, thank you for your time and effort.

What was the number of <u>undergraduate</u> alumni of record at your institution? (Alumni of record are former full- or part-time students with an undergraduate degree from your institution and for whom you believe you have a valid address or other way to make contact (telephone, email, etc.))

Note: The alumni giving data reported to U.S. News should be the same as what was reported to the Council for Aid to Education for undergraduate alumni in its annual Voluntary Support of Education Survey. If you do not break down undergraduate-only giving for the CAE survey, you must still do so for this report.

Please report the salaries of full-time & part-time instructional faculty members in for the 2017-2018 academic year. Data from the 2016-2017 academic year is provided for your reference.

Faculty: Salaries

The following definitions of instructional faculty are used by the American Association of University Professors (AAUP) and should be reported to U.S. News the same way.

Full times

Dant time

	Full-time	Part-time
(a) instructional faculty in preclinical and clinical medicine, faculty who are not paid (e.g., those who donate their services or are in the military), or research-only faculty, post-doctoral fellows, or pre-doctoral fellows	Exclude	Exclude

Full-time Instructional Faculty: include full-time faculty members for the entire institution, excluding clinical or basic science faculty located in schools of medicine and/or military faculty. For the purpose of this survey, include all members of the "Primarily Instructional: and "Instructional/Research Public Service" staff who are employed full-time and whose regular assignments has an instruction component (including released time for research), regardless of whether they are formally designated "faculty".

Primarily Instructional: an occupational category used to classify persons whose specific assignments customarily are made for the purpose of providing instruction or teaching. Regardless of title, academic rank, or tenure status, these employees formally spend the majority of their time providing instruction or teaching.

Instructional/Research/Public Service: refers to an occupational category used to classify persons for whom it is not possible to differentiate between instruction or teaching, research, and public service because each of these functions is an integral component of his/her regular assignment. Regardless of title, academic rank, or tenure status, these employees spend the majority of their time providing instruction, research, and/or public service.

Part-time Instructional Faculty: include only those specific individual 2017-2018 faculty members who were designated as less than full-time whose regular assignment has an instruction component (including released time for research), regardless of whether they are formally designated "part-time faculty." As with full-time the unduplicated combined total of "Primarily Instructional" and "Instructional/Research/Public Service" excluding clinical or basic science faculty, medical faculty in schools of medicine, and military faculty. Casual employees, hired on an ad-hoc basis or occasional basis to meet short-term needs) and students in the College Work-Study program are not considered part-time faculty, even if they have an instructional component.

Graduate Teaching Assistant: include all individuals that assist faculty or other instructional staff in postsecondary institutions by performing teaching or teaching-related duties, such as teaching lower level courses, developing teaching materials, preparing and giving examination, and grading examinations or papers. Graduate Teaching Assistants must be enrolled in a graduate school program. Include the unduplicated combined total of "Primarily Instructional" and "Instructional/Research/Public Service" excluding clinical or basic science, medical and military graduate teaching assistants. Include graduate teaching assistants who are (a) instructor of record for an organized class section, (b) the instructor of record for a laboratory section or individualized instruction session, (c) assisting faculty and are not the instructor of record, and (d) "floating" graduate teaching assistants who have a roll that primarily supports instruction but is not directly associated with one section or faculty member.

163.) Undergraduate Class Size: In the table below, please use the following definitions to report information about the size of class sections offered in the Fall 2017 term. Fall 2016 data provided for your reference.

Number of Faculty (Form 6, Sec. 1, Col 5) Total Contracted Salaries (Form 6, Sec. 1, Col 6)

Class Sections: A class section is an organized course offered for credit, identified by discipline and number, meeting at a stated time or times in a classroom or similar setting, and not a subsection such as a laboratory or discussion session. Undergraduate class sections are defined as any sections in which at least one degree-seeking undergraduate student is enrolled for credit. Exclude distance learning classes and noncredit classes and individual instruction such as dissertation or thesis research, music instruction, or one-to-one readings. Exclude students in independent study, co-operative programs, internships, foreign language taped tutor sessions, practicums, and all students in one-on-one classes. Each class section should be counted only once and should not be duplicated because of course catalog cross-listings.

Chartered by the state of Georgia in 1785, the University of Georgia is the birthplace of public higher education in America — launching our nation's great tradition of world-class public education. What began as a commitment to inspire the next generation grows stronger today through global research, hands-on experiential learning and extensive outreach. One of America's "Public Ivies" and a top 12 best value in public higher education, the University of Georgia tackles some of the world's grand challenges — from combating infectious disease and securing the world's food supply to advancing economic growth and analyzing the environment.

As Georgia's flagship institution, the university is recognized for its commitment to student excellence, particularly through an emphasis on rigorous learning experiences both inside and outside the classroom, hands-on research, and leadership opportunities. These experiences contribute to the university's exceptional retention, graduation and career-placement rates. The honors program is ranked among the top 10 in the country and among public universities has been one of the nation's top three producers of Rhodes Scholars over the past two decades.

Scholars at the University of Georgia are committed to improving the quality of life for all and lead discovery in pivotal fields such as vaccine development, biomedical research, cybersecurity, and plant sciences. One of the nation's top universities for technology commercialization and licensing income, the University of Georgia has invented nearly 700 commercial products currently in the marketplace. The university is also home to the Peabody Awards, the most prestigious prize in electronic media.

With its comprehensive reach, the university's 17 colleges and schools enroll 37,000 students and have produced 315,000 alumni living worldwide. The University of Georgia's initiatives extend globally while touching every corner of the state, realizing the university's landgrant and sea-grant missions. The university's eight Public Service and Outreach units, which are among the strongest in the nation, help create jobs, develop leaders and address critical challenges. Research, outreach and extension serve as major drivers of economic and workforce development and spark successful partnerships that create new businesses and train the workforce of tomorrow. The university's threefold teaching, research and service mission spans the globe with campuses in five Georgia locations, Washington, D.C., England, Costa Rica and Italy, as well as partnerships in more than 50 countries on six continents.

Located in the Classic City of Athens, approximately an hour northeast of Atlanta, the university thrives in a community that promotes the benefits of a culture-rich college town with a strong economic center. The campus is home to more than 600 registered student and service organizations. The university's athletic programs are among the most successful in NCAA Division I and the 19 varsity athletic teams compete as Georgia Bulldogs, with "Uga" consistently ranking as one of the nation's most recognized mascots.

166.) Popular Majors - 2017 Graduates:

Using CIP 2010 codes, please identify the five majors with the largest percent of bachelor's degrees awarded by your institution between July 1, 2016 and June 30, 2017. Only five majors can be entered. For more information on CIP 2010 click https://nces.ed.gov/ipeds/cipcode/browse.aspx?y=55). Last year's information (2016 graduates) is included for your reference.

180.) Undergraduate Academic Programs of Study

Please <u>check</u> each academic program offered and report the <u>percent</u> of 2017 graduating seniors who have participated in these programs during their undergraduate years.

First-year Experiences: Curricular and/or co-curricular programs beyond orientation that bring together faculty and/or staff and groups of first-year students to: address the development of knowledge, skills, and/or perspectives for academic and college success; promote meaningful student-faculty interaction (one-on-one or in small groups).

Learning Communities: Groups of students that take part as a cohort in intentional, institutionally-designed curricula, most often consisting of at least two linked courses, that are designed to address academic and social development inside and outside the classroom through planned interactions among the cohort and with the faculty.

Senior Capstone of Culminating Academic Experiences: Integrative, credit-bearing experiences, offered in the last stages of a student's program of studies, which aim to have the student synthesize the academic experience, often in the creation of a product that demonstrates the ability to frame and resolve an open-ended question, or of a performance or an exhibit.

Undergraduate Research: Self-directed academic work by an individual student or by small groups of students that deals with an open-ended issue with the expectation of a substantial scholarly or creative product that can be formally presented on or off campus. Such work is undertaken with a faculty mentor for at least one academic term or intensive summer, and students understand their roles as researchers/creators and act in those roles.

Service Learning: An academically-based instructional strategy, credit-bearing or required for a degree, that provides students with both meaningful service opportunities in interactive partnership with the community and academic structures for analysis and reflection on their contributions and learning.

Study Abroad: Substantial academic, credit-bearing study, the equivalent of at least one full course, under faculty supervision, conducted outside the United States but approved by the home institution, which includes substantive interaction between the student and the host culture and/or environment.

Internships, Cooperative Education, or Practica: The practical application of learning from a specific academic program in a pre-planned out-of-class situation equivalent in time to at least 1 academic credit, paid or unpaid, requiring structured reflection and/or an end product, supervised and evaluated by faculty, field person, or cooperating professional directing the learning activity.

Writing in the Disciplines: Institutional commitment, manifest through an organized approach, to significant student participation in writing embedded in courses at all levels and in all divisions of the curriculum. To accomplish significant writing over time and at increasing levels of sophistication, it often includes writing experiences in many different disciplines, varied forms of writing for varied audiences, and iterative writing processes.

202.) FOR THIS GRID:

- Intercollegiate sports are those recognized by either the NCAA or NAIA. Athletic scholarships are only available to NCAA Division I and II and NAIA sports.
- Intramural sports are competitive sports played at your institution among other students at your institution.
- Club sports are not governed by the NCAA or NAIA, may have separate championships, and/or may have intercollegiate contests. For this survey, athletic scholarships may not be reported for club sports.

Programs/Services for Students with Learning Disabilities

Programs/Services for Students with Learning Disabilities offered during the 2017-2018 academic year

242.) Check one type that describes your school's LD Program:

Structured/Proactive/Comprehensive program:

Program has separate admissions process and charges fees. Services go well beyond those that are legally mandated and the student is provided with a more structured environment. Low staff/student ratios. Compulsory student attendance. An advisor/advocate is made available to students.

Self-directed/decentralized services:

There is no separate admissions process and eligibility for services must be established by the provision of disability documentation that meets institutional standards. Services may be coordinated through the Disability Services office and are based on need as specified by the documentation. Other offices throughout the campus may also provide services and some services offered are not mandated by laws. Students' progress is not monitored.

Compliance:

Most of the services and accommodations that are provided to students with learning disabilities are those required by law. This type of program can meet the needs of independent students, aware of their needs and able to develop and coordinate their own support systems.

Assessment

The following section contains a brief analysis of ranking data your school submitted on this year's Main statistical survey. All flagged data (identified by the red asterisk *) must be addressed in order to submit your survey. To acknowledge that the flagged data is in fact correct, please select the confirmation checkbox associated with item in question. Once every flagged assessment item has been either confirmed or corrected, please proceed to the verification section.

Making Data Changes – If you notice an incorrect current year value please go back into the survey and correct the data point. The question numbers are listed for your reference. Changing last year's data must be done through your data collector. Please contact them with the updated information and a brief description as to why it needs changing. We will analyze the requested changes on a case by case basis and get back to you.

Below is a list of some terminology you may encounter:

Large Change - For the questions(s) indicated, the data submitted for the current year are significantly larger or smaller than the data supplied for the previous year. If the data supplied are correct as entered, please check the box. If the data is incorrect, please go back into the survey and supply new data.

Missing - No information has been submitted for this indicator. If the question does not apply to your institution, or if you cannot supply the data requested, please check the box. If you can supply the missing data, please go back into the survey and enter the new data. If you wish to add in missing previous year data, please contact your data collector with that information.

High Value - The data submitted are significantly higher than the norm. Please either correct the figure or verify that the data are correct as submitted.
